//Targeting Entry-Level Opportunity in...

Dedicated software developer looking to utilize teamwork, curious nature, and problem-solving skills to transition from the healthcare world into software development.

Software Development

- Upcoming Eleven Fifty Academy graduate offering a strong foundation in software engineering and programming principles across multiple platforms.
- Experienced in object-oriented programming; developing, testing, and debugging code; designing interfaces; and administering systems and networks.
- Quickly learn and master new technologies; successful working in both team and self-directed settings.

Education

Eleven Fifty Academy -- Indianapolis, IN

Software Development Cohort – July 2020

- Gold Badge Console App Collection:
 - *Project Scope:* Utilized repository patterns to build out six console applications. Each application tackled a problem for a hypothetical business and required custom business logic to solve. Unit Tested all methods before applying to code. Responded to feedback to create pleasing user experience.
 - *Tools:* Visual Studio .Net, C#
 - *View Code:* <https://github.com/slsnider727/GoldBadgeChallenges>
- ASP.NET Web API
 - *Project Scope:* Collaborated with teammates in Agile environment to create a custom Multi-tier Web API. Worked with Entity Framework and SQL Server to create custom data tables. Used Postman to test custom endpoints.
 - *Tools:* Visual Studio .Net, C#, Trello, GitHub, Slack, Postman
 - *View Code:* <https://github.com/slsnider727/GoldBadgeChallenges>
